

PHOMI eCovering Core Values

High Value and Durability

eCovering showcases the texture and color of natural materials,. Based on the inorganic-organic hybrid structure, it has excellent UV-resistant qualities. The service life of eCovering is several times longer than that of PVC wallcovering and flooring, reducing the frequency of replacement and the waste of resources

A1 Fire Rating

Based on inorganic properties, it has a fire resistance rating of A1, providing a better safeguard compared to flammable plastic and wood surface materials

Replacement of energy-intensive material

The unique active valence bonds and low-temperature molding can create more functional products to meet the need of different settings, becoming an ideal substitute for traditional materials such as tiles, stones, cements, marbles etc.

Environmental Protection and Sustainability

1. Not relying on a specific mineral resource diminishes the adverse impact of resource extraction on the environment.
2. Low temperature molding process decreases energy consumption and the low temperature molding process decreases energy consumption and eliminates waste gas emissions and wastewater disposal.
3. Inorganic solid waste can be reused and recycled, greatly limits the negative impact on the environment.

**ANDES YELLOW
ROME TRAVERTINE**

Sizes (cm)	Thickness (mm)
240 x 120	3.0(±0.6)
120 x 60	3.2(±0.2)

**CLOUD WHITE
ROME TRAVERTINE**

Sizes (cm)	Thickness (mm)
240 x 120	3.0(±0.6)
120 x 60	3.2(±0.2)

**ANDES YELLOW
DEVINE MUSHROOM**

Sizes (cm)	Thickness (mm)
240 x120	1~8

PORTORO
ROUGH SURFACE

Sizes (cm)	Thickness (mm)
240 x 120	1 ~ 4

CASTOL BLUE
ROUGH SURFACE

Sizes (cm)	Thickness (mm)
240 x 120	1 ~ 4

GREYISH DESERT
POLISHED CONCRETE WALL

Sizes (cm)	Thickness (mm)
120 x 60	2.5(±0.5)
